

We've been working hard for 75 years. There is no other organization that can say that it has done more for the health of babies, children, moms and families than March of Dimes. As we embark on this next Chapter in our organization, we need your help. We want to make 2013 our best year ever. We want to blaze the path to our next breakthrough - premature birth. We are urging all of our Alabama FBLA partners to go a little further and reach a little farther to help us reach our best year ever. We look forward to celebrating together.

Will you accept the challenge? Will you commit to raising a minimum \$750 per FBLA Chapter? Why go above and beyond?

- Because all babies are NOT born strong and healthy.
- Because over 500,000 each year are born too soon.
- Because premature birth is the number #1 killer of newborns.
- Because millions of deserving research grants did not get funded last year; could it have been the answer?

We want all babies to get a healthy start and to grow up to do something great. With your help we can make sure that happens. **Beat Your Best - for Babies!**
